

JANUS HENDERSON CAPITAL FUNDS PLC

10 Earlsfort Terrace

Dublin 2

Ireland

Unless otherwise defined herein, all other capitalised terms used herein shall bear the same meaning as capitalised terms used in the prospectus of the Janus Henderson Capital Funds plc (the “Company”) dated 28 November 2019 (the “Prospectus”). A copy of the Prospectus is available upon request during normal business hours from the Administrator. In accordance with the current policy of the Central Bank of Ireland (the “Central Bank”), this document has not been reviewed by the Central Bank.

4 February 2020

Dear Shareholder,

RE: Notification of amendment to the investment policy of the Janus Henderson Global Life Sciences Fund (the “Fund”), a sub-fund of the Company

We are writing to you as a Shareholder in the Fund to inform you of the following proposals to amend the investment policy of the Fund to introduce a performance target for the Fund and, in line with recent regulatory guidelines, to include additional disclosure in the Prospectus on the use of a benchmark in managing the Fund.

- The performance target for the Fund will be to outperform the MSCI World Health Care Index (the “Benchmark”) by at least 2% per annum, before the deduction of charges, over any 5 year period.
- The Fund is actively managed with reference to the Benchmark, which is broadly representative of the companies in which the Fund may invest. The Sub-Investment Adviser has a high discretion to choose individual investments for the Fund with weightings different to the Benchmark or not in the Benchmark, but at times the Fund may hold investments similar to the Benchmark.

In addition, the disclosure on the Fund’s investment strategy is being enhanced to provide that the Sub-Investment Adviser generally takes a “bottom-up” or stock picking approach to building a portfolio of investments which are built one security at a time following in house research into each company. Companies are considered principally on their own fundamental qualitative and quantitative characteristics. The Sub-Investment Adviser looks to identify innovative healthcare companies addressing high unmet medical needs. The team understands that success of drug development is binary in nature, creating wide disparities between winners and losers. The investment process leverages proprietary statistical models to analyse the probability of a company's success, focusing on products they believe can overcome the rigours of clinical development. Additional tools, such as physician surveys and prescription models, attempt to more accurately predict commercial viability.

Effective Date of the changes:

Subject to regulatory approval, the revised Prospectus is expected to take effect on or around 18 February 2020 (the “Effective Date”). The Company will confirm the effective date of the change by way of an announcement which will be available on Janus Capital International Limited’s website at www.janushenderson.com.

If you have any questions please do not hesitate to contact your distributor or usual Janus Henderson representative.
